

## Free In-Person Series

### ADMIN 101 – Leading Through Effective Leadership

For new and current site and district level administrators, this three-part professional development focuses on the foundations of capacity for leadership. Using the California Professional Standards of Educational Leaders as a framework, participants will engage in collaborative workshops through a connected series of topics which include:

- Building culture
- Instructional leadership
- Improvement science
- Team-building/ PLCs
- Budgeting
- Meeting the needs of special populations

Modules will provide opportunities for leaders to evaluate their current data, systems, and practices for continuous improvement toward student-centered leadership.
